[Registration by 30 September 2024 Payment details upon registration.](#)

## Our guest speakers:

### Matt Malloy

#### Overview

Matthew has worked in the construction industry since 1987. He qualified as a Chartered Quantity Surveyor in 1993, having completed his studies whilst working with a national contractor. After qualification he joined a regional contractor where, after undertaking an MSc in Construction Management and qualifying as a Chartered Builder, he progressed to contracts

management.

Since forming MCMS in 1996, Matthew has specialised in providing quantity surveying services, contract advice and dispute resolution services to a wide variety of clients. He is a Fellow of the Chartered Institute of Arbitrators and a Chartered Arbitrator and is a member of the Academy of Experts. He trained as a mediator with CEDR and was called to the Bar in 2001. He has also been appointed as adjudicator and arbitrator on over 450 occasions, acting as tribunal in construction and engineering disputes ranging in value up to £87m, including PFI, PPP and utility contracts.

#### Professional Background

Matthew acts as mediator in relation to construction and property related disputes, including complex multi-party disputes, disputes involving public and private bodies, private individuals and insured professionals. Drawing on his considerable experience and expertise as a construction industry adjudicator, chartered arbitrator and expert witness, he is increasingly being asked to adopt an evaluative style if he considers it appropriate to do so, which sometimes involves giving a recommendation. He is comfortable with either a facilitative or evaluative style, or a combination of both and acts as an expert determiner.

### Michael Blackburne – Consultant Solicitor

Michael has specialised in domestic and international adjudication, litigation and arbitration in the construction, engineering and infrastructure, energy and natural resources, transport and professional negligence sectors for over 40 years. Throughout his career he has handled many high profile, high value, complex and difficult matters representing a huge variety of suppliers, manufacturers, contractors, employers, their professional advisers and insurers.

He has been recognised for many years by the legal directories including The Legal 500, as a leader in the field of Construction and praised in (Construction) 2015 for his “incisive advice and common-sense attitude”. He is also recognised as “excellent” on construction related professional indemnity matters (2015).

An important part of Michael’s work is advising in relation to practical problems arising out of contracts of all kinds including bespoke contracts and the principal standard form engineering and building contracts including, FIDIC, ICE, I Mech E, I Chem. E, JCT, NEC 3, RIBA and ACE and Government forms of contract.

## Matthew Davies

Matthew Davies Bsc (Hons) Q Surveying, LLB (Hons), LPC (Commendation), DipAdj, MRICS, is dual qualified as a Chartered Quantity Surveyor and a Solicitor (non-practicing).

Matthew has over 20 years' experience in the construction industry originally gained working as a quantity surveyor working on a variety of building projects then latterly as a consultant working for a wide range of clients providing commercial and contractual management and construction law.

Matthew specialises in providing legal, commercial and contractual management, construction claims and dispute resolution services to the construction industry including representing organisations in adjudication and other dispute forums. Matthew also drafts and reviews contracts, sub-contracts and collateral warranties, and advises on a variety of contentious and non-contentious construction matters. He also undertakes the preparation and resolution of complex final accounts and other quantity surveying matters.

Matthew also undertakes the vetting and drafting of contracts and seminars and is experienced in the resolution of both simple and complex contractual problems.

In addition to the above Matthew is the joint author of the book "Subcontracting under the JCT2011 forms".

## Harvey Cooke

Harvey is a committee member of the East Anglian Branch of CIARB.

Director – Arbicon ADR Ltd, Chartered Quantity Surveyor, Building Surveyor, Project Manager, Construction Adjudicator, Expert Witness/Reports/Determination, Delay and Loss Analyst, Building & Structural Surveyor, Boundary and Dilapidations Disputes, Leading Authority on Construction Contracts/Law, Commercial Construction

Contract Solutions and Dispute Resolution.
